

STEMulate your mind with the 3rd ANNUAL

Family STEM Week SCIENCE • TECHNOLOGY • ENGINEERING • MATH

& Career Showcase!

Virtual and FREE!

Monday, October 19, 2020
6:00-8:00 pm

Learn about various STEM Careers!

- ❖ Experience a sampling of various STEM Careers including biology, chemistry, the environment, technology, computer science, animal science, entomology and more from a variety of interesting videos.

Tuesday, October 20, 2020
6:00-8:00 pm

- ❖ **6:00pm** – Learn how to make the Suffrage Movement’s Rosettes & Yellow Rose Pop-up Cards, and about voting technology thru the years.
- ❖ **6:30pm** - NASA Ambassador Pat Monteith will be *live* to explain about NASA’s mission earlier today with Spacecraft OSIRIS-REx’s touch-down on Asteroid Benu to bring a sample of its dirt back to Earth.

Wednesday, October 21, 2020
5:00-7:30 pm

- ❖ **5:00pm** – Talk with scientist Jean Pennycook about her book *Waiting for Joey*, and about her research on Adelle Penguins which only exist in Antarctica.
- ❖ **6:00pm** - *The Case of the Disappearing Habitat: The Candy Culprit*, Educator Laura Bahr will guide you in becoming environmental detectives through this project developed with the New England Primate Conservancy. Original detective-style videos will make this a fun and unique experience.

Thursday, October 22, 2020
6:00-8:00 pm

See Yourself in a STEM Career!

- ❖ Talk with scientists and researchers of all types from major organizations such as the Broad Institute, NOAA, EPA and more about classes you should take, internships & career options in STEM.

NAACP ACT-SO Program

- ❖ Learn more about this STEM mentoring program and competition for African American high school students. Talk with students who have participated.
